

## ADocMolMag Prize - V edition

### AN EUROPEAN AWARD FOR A DOCTORAL THESIS ON MOLECULAR MAGNETISM

Entries are now being accepted for the fourth “European Award on Molecular Magnetism Doctoral Thesis”. The awards, will be given to young talented researchers in the field of Molecular Magnetism or a closely related discipline. The jury will pay particular attention to the design of novel magnetic molecules and materials, discovery of new phenomena, the application of new technologies or techniques, and important steps that advance our understanding of molecular magnetism. The jury will be composed of four internationally renowned scientists working within the field. The final number of prizes awarded (probably three), will be communicated after the selection.

The prize will include:

- a) A diploma certifying the winning of the award;
- b) 500 Euro to the winner plus other 500 Euro (so a total of 1000 Euro) to support the travel expenses and the registration fee for the attendance to an international meeting related with Molecular Magnetism or having session devoted to Molecular Magnetism (such as the European Conference of Molecular Magnetism 2019, or the Spintronic conference 2018, or the ESMolNa school 2018, where, the successful candidates, will also have the opportunity to present their work, or others like ICCM, as an example).

**Eligibility.** Candidates are considered eligible if they have submitted a PhD thesis between the 1<sup>st</sup> April 2014 and the 31<sup>th</sup> March 2016.

**Application.** The application should contain (in electronic format):

- 1) A **three-page summary** of the thesis, underlining the major achievements of the thesis work;
- 2) A **list of the publications** obtained from the thesis, including publications that have appeared since the thesis was submitted, reporting also the IF of journal and number of citations of each paper;
- 3) A two page (maximum) **CV**, containing also the contact details of the applicant;
- 4) A maximum of **One recommendation** letter (not mandatory) from the supervisors of the thesis or other scientists involved in the thesis work;
- 5) The **electronic version of the thesis** and related publications in pdf format.

Applications should be sent to the following email address:

[adocmolmag@instm.it](mailto:adocmolmag@instm.it)

by **March 30<sup>st</sup> 2018**, and should be clearly marked **ADocMolMag** in the subject.

If the material is too heavy for being sent by email, you are allowed to use tools for transfer of data. Dr. Stefano Vannuzzi, from EIMM secretariat, will take care of the collection of the applications and will acknowledge your application
